

Rocky Mountain High Road Tour
June 30-July 5, 2007
Presented by Motorcycles: On The
Road Again & Turkey Creek Tours

Has another year passed and you still haven't taken the motorcycle tour of your dreams?

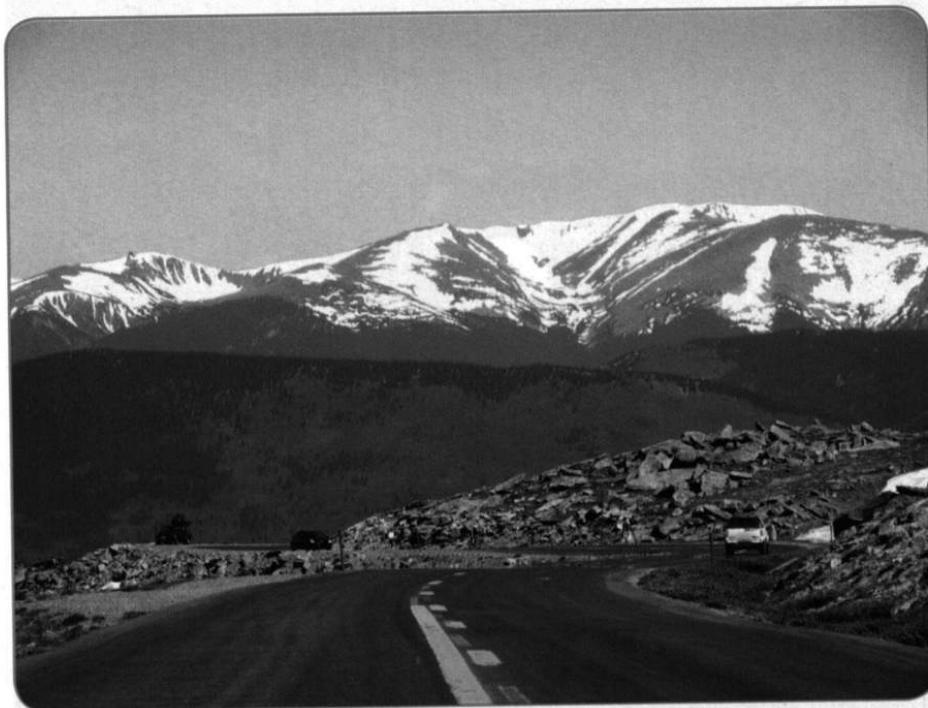

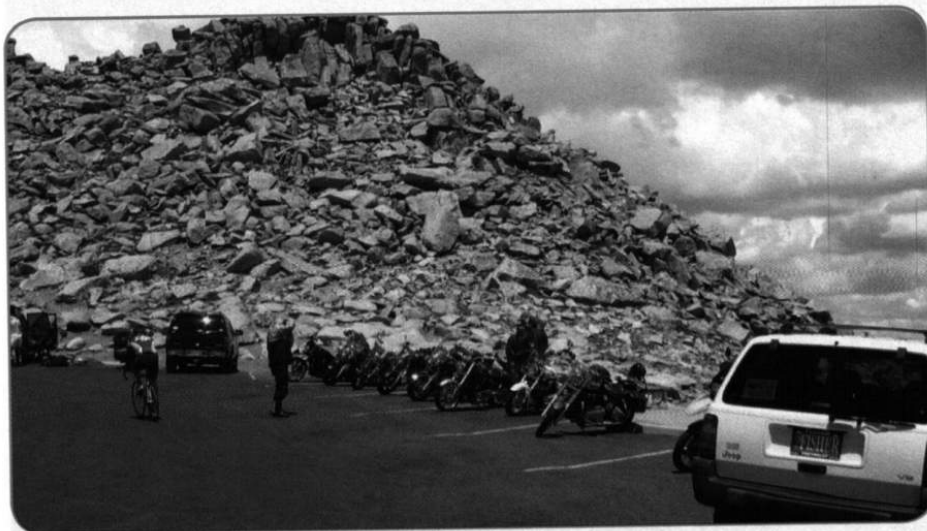

That dream trip doesn't just happen by accident. Most people don't suddenly sit up one day and think "Next week I think I will ride in the mountains for eight days". It takes advance planning to get the most out of such a ride.

Colorado, for many riders, is one such dream trip. And Motorcycles: On The Road Again has made special arrangements with Turkey Creek Tours for an "On The Road Again" trip in Colorado next year from June 30th to July 5th. Afterwards we will be publishing a special feature about the trip and will include photographs of the ride as well as the riders' remarks and thoughts about the trip.

This fully guided, full service luxury tour defines "Motorcycle Touring with Altitude". Visit some of the many places written about in this magazine such as The Royal Gorge, home of the highest suspension bridge in the world and carved over millions of years by the Arkansas River. Ride pass beneath the Collegiate Peaks, and take in more 14,000 foot peaks than can be seen anywhere in the United States.

Sleep in the highest city in America and some of the best of the classic western towns. Top it off with a ride on the highest paved road in

G O D O M E T E R

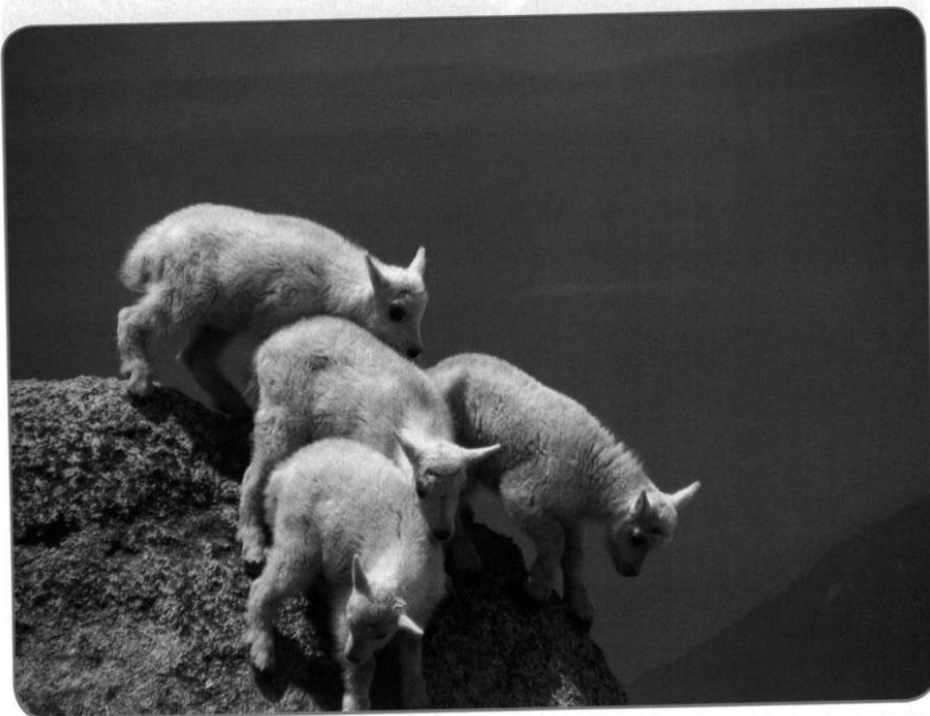

North America up to a breathtaking 14,264 feet (4348 meters).

On the way, stop at the historic Echo Lake Lodge and walk among 2,000-year-old trees and get that "must have" photo at Summit Lake, a glacial cirque at 13,001 feet high

(3963 meters). Get those ride "thrills" as you ride the many Scenic and Historic Byways and mountain passes.

You even will have the choice of riding with the group or riding ahead. Side routes will also be available if you wish to venture out. A

daily map and ride briefings will be given to you and your luggage will be taken care of so that you can enjoy your day on the road.

The places you will see along the way are almost magical: Evergreen,

Ute Pass, Arkansas River Valley, the Royal Gorge, "Cloud City", Steamboat Springs, Winter Park, Idaho Springs, and Mt. Evans. This is your chance to get to know the Colorado you have always heard and dreamed about, up close and per-

sonal and from the seat of a motorcycle.

If you've taken a motorcycle tour before then you know how much fun it can be and how easy it is to make friends for life. If you haven't toured before – what are you waiting for?
